Cambridge, Massachusetts 02138

I am pleased to join Major General Stanhope Spears and the South Carolina Military Department in recognizing the State Defense Force Publications Center as an outstanding resource for the sharing of professional, contemporary, and historical information on homeland security, homeland defense, and monographs on subjects of importance to National Guard and State Defense Forces.

In addition, the State Defense Force Journal provides quality professional reading for any interested defense practitioner. I commend and recommend SDFPC's efforts be considered for the Mitrek Innovations Award for Homeland Security.

Regards,

William H. Wade II
Major General
The Adjutant General
California National Guard
